

Overview

Thank you for designing with the Xilinx Spartan®-6 family of devices. The purpose of this notification is to inform Xilinx customers of corrections in UG383, *Spartan-6 FPGA Block RAM Resources User Guide*, (http://www.xilinx.com/support/documentation/user_guides/ug383.pdf) to the described behavior of the configuration-time initialization and configuration readback operations specific to the 9 Kb configuration of the Spartan-6 FPGA block RAM.

Description

The following describes the actual behavior for the Spartan-6 FPGA block RAM used in a 9 Kb configuration (RAMB8BWER).

Note: The following descriptions of behavior do *not* apply to block RAMs in an 18 Kb configuration (RAMB16BWER). The 18 Kb block RAM supports configuration initialization and configuration readback.

9 Kb Block RAM Configuration Initialization

The initial contents of a 9 Kb block RAM from an FPGA configuration event are not defined.

9 Kb Block RAM Configuration Readback

Configuration readback and the iMPACT Verify operation are not supported for designs containing 9 Kb Block RAM. The contents of a 9 Kb block RAM can be corrupted during a configuration readback or iMPACT Verify operation.

Notes: Readback CRC (POST_CRC) function is supported and does not affect the contents of a 9 Kb block RAM.

Products Affected

This notice applies to all Spartan-6 LX and LXT FPGAs. The products affected include all standard part numbers and specification control document (SCD) versions of these standard part numbers.

Key Dates

These changes are effective upon this PCN release.

Response

No response is required. For additional information or questions, please contact Xilinx Technical Support <http://www.xilinx.com/support/techsup/tappinfo.htm>.

Important Notice: Xilinx Customer Notifications (XCNs, XDNs, and Quality Alerts) can be delivered via e-mail alerts sent by the Support website (<http://www.xilinx.com/support>). Register today and personalize your "Documentation and Design Advisory Alerts" area to include Customer Notifications. Xilinx Support provides many benefits, including the ability to receive alerts for new and updated information about specific products, as well as alerts for other publications such as data sheets, errata, application notes, etc. For information on how to sign up, refer to Answer Record 18683: <http://www.xilinx.com/support/answers/18683.htm>.
